

## Eight evenings in the Light.

The True Light turns the Gospel of John into a journey your small group can take together. Across eight sessions it pairs the words of John with the testimony of the early Friends—opening honest conversation about the Light that “lighteth every man,” the new birth, and what it means to abide.

Each session offers a focused reading, questions that open rather than close, and room for the kind of expectant silence the first Quakers prized. No expertise required—only willingness to come and see.
